

**Down  
to  
Earth**

CENTRE FOR PRACTICAL SUSTAINABILITY  
AND NATURAL BUILDING

**Experienced in growing veg?**

**Into organic gardening?**

**Time to put back into your community?**

# **Garden Volunteer**

Down to Earth Project provides groundbreaking educational programmes for 'hard to reach' people of all ages, using traditional and natural building methods, adventurous activities and land-based skills to promote self development. We work in a beautiful space on a 3.75 acre smallholding.

The Garden Volunteer will maintain our small organic vegetable and fruit garden for around 1 or 2 days per week and possibly, following training and a CRB check, have some involvement with groups.

Experience of growing vegetables and fruit is essential - preferably organically - together with driving license, access to your own transport and good physical fitness. Also important will be an awareness of the demands of our working environment.

To set up a meeting please phone or email Mark at the address below.

Down to Earth Project, 72a Manselfield Road, Murton, Swansea SA3 3AP
